# BATTERSEA POWER STATION

# AN ICONIC BUILDING

Newly open to the public in 2022 after a 9-year renovation project, Battersea Power Station is an iconic part of the London skyline.

At its peak, Battersea Power Station was supplying a fifth of London's electricity. After decades of sitting derelict, it is now open to the public as one of London's most exciting and innovative new destinations. The very building which once produced the energy that enabled people to eat, drink, shop and play in the City, now provides the venue for a new generation to do the same.

In partnership with Battersea Power Station, IMG runs the Lift 109 experience within one of the station chimneys, as well as operating our annual winter event, Glide.

# A PRIME LONDON DESTINATION

Battersea Power Station is in the heart of central London, with transport links via London underground, bus, train and river. There is also all-day parking available within the station.

Visitors can choose to dwell from day to night, to shop, eat, drink and skate – giving the Glide at Battersea Power Station audience a wonderful combination of festive activities in an easily accessible area in London.

# EVENT OVERVIEW

# LONDON'S COOLEST RINK

Set against a backdrop of one of **London's** most iconic riverside buildings, Glide at Battersea Power Station is the most magnificent open-air ice rink in the city.

Off the ice guests can enjoy a small selection of vintage-style fairground rides, festive entertainment, photobooths to snap and share, and delicious food and drink from The Glass House café and bar.
